Professor Linda Johnston RN PhD

Editor

linda.johnston@qub.ac.uk

The July issue demonstrates the breadth of expertise held by our contributing authors. With the privilege of being Editor for 3 years, I reflect on the position held by children's and young people's health in government policy around the world. Empirical research papers with patients and families, and a review of adolescents' access to health services are a few of the contributions in this issue. Authors should also take note of the guidelines with respect to e-repositories.

Developing a culture of nursing research in neonatal clinical care in Western Australia

Laurene Aydon, Yvonne Hauck, Jamee Murdoch and Christine Foster

The voice of the adolescent: perceptions of general practice and accessing other health care services

Alison Hutton and Nicola Jackson

Management of atopic dermatitis in children: Evaluation of parents' self-efficacy, outcome expectations, and self-reported task performance using the Child Eczema Management Questionnaire

Amy E Mitchell and Jennifer A Fraser

RESUS4KIDS: Teaching paediatric resuscitation to nurses in New South Wales

Margaret Allwood,, Kathryn McGarvey and Fenton O'Leary

Cochrane Nursing Care Network

Carmel Collins and Trudi Mannix
